

Gearing Up for Safety

Tractor Safety Course

Learn about...

Tractor Operation & Safety – Learn how to start, stop, and operate tractors safely, including pre-operation checks and recognizing danger zones.

Equipment Awareness – Understand how power take-off (PTO) systems and other implements work, and how to prevent common entanglement hazards.

Safe Work Practices – Develop safe habits around hitching, hauling, roadway driving, and working with trailers or attachments.

Emergency Preparedness – Gain skills to respond to accidents, recognize unsafe conditions, and protect yourself and others on the farm.

Dates: November 11, 13, 18, 20, and 22

Times: Tues./Thurs. 4:00p-8:30p, Sat. 8a-2p
