

JOB SAFETY ANALYSIS EXAMPLE TEMPLATE

Job: Sand bedding cows stalls with Skid Loader

Step	Hazards/Conditions	Safety Procedures
1. Pre-Operational Inspection	Malfunctions, leaks, loose parts, fuel/oil spills	Check tires/tracks, hydraulics, lights, alarm; secure bucket; refill fluids safely; fix defects
2. Enter/Exit Loader	Slips/falls, impacts, clothing caught	Use 3-point contact; keep steps/handles clean; no jumping; avoid loose clothes; wear slip-resistant boots
3. Drive to Sand Pile/Load	Collisions with bystanders, poor visibility, uneven/slippery ground	Install mirrors; use spotter if needed; drive slow; check backup alarm, keep tractor windows clean, don't overload
4. Transport Sand to Barn	Collisions with people, cows and facilities, spillage, tipping, overhead/door strikes	Keep load low; drive slowly/careful; avoid sudden moves; mark/guard doors; watch overhead; keep people/animals clear
5. Dump/Spread Sand	Crushing, bucket drop, dust/debris	Clear work zone; lower bucket slowly; wear mask/eye protection; controlled movements
6. Park/Shutdown/Clean	Rollaway, unauthorized use, spills	Park level; lower attachments; set brake; shut off/remove key; clean spills; secure equipment
